SEVERE TROPICAL CYCLONE DEBBIE RECOVERY

Following STC Debbie, the Fitzroy River Catchment area was lashed by destructive winds and heavy rainfall. On 7 April 2017, the Fitzroy River peaked at 8.9m, causing widespread flooding in the Fitzroy Basin, Rockhampton and surrounding areas.

As water receded, silt and mud covered streets and parks, and initial assessments found approximately 1,500 homes had been impacted.

Rockhampton Airport was inundated, forcing its closure for 10 days. Transport in and out of Rockhampton was limited when the Bruce Highway closed for five days, due to damage to rural roads. Small businesses and primary producers were affected, as was availability of essential items including fresh produce.

Tourism was impacted over the Easter holiday period with high levels of cancellations for hotels, caravan and camp sites.

As at 1 June 2017, more than 2,200 people in Rockhampton have accessed immediate hardship grants totalling more than $402,000.
