

INCLUSION MATTERS

Treasury is committed to representing the Queensland communities we serve and embracing their diversity. We acknowledge that diversity is a strength that contributes to our organisation's performance, excellence and innovation.

We are committed to building on our existing diversity and nurturing an actively inclusive workplace, where we respect and value different perspectives, experiences and backgrounds.

As a community, we will create a supportive work environment where all employees can feel safe and valued. We will challenge behaviours that do not align with providing a safe and respectful workplace.

We believe in equitable opportunities for all. As an organisation, we will consciously apply diversity and inclusion as a fundamental principle across our workforce decisions.

Our journey begins with you.
