SPER Debt

October 2018

Breakdown of outstanding SPER debt by postcode in Queensland

Disclaimers: This report includes all types of debt currently outstanding with SPER.

It should be noted that this data is only available at a current point in time; it is not possible to report historically on this data.

It should also be noted that some postcodes can span multiple suburbs. For example, postcode 4020 includes data for both Redcliffe and Scarborough. Therefore, this needs to be taken into account when grouping postcodes to reflect a region, local/state electorate or Statistical Division.

This report is a breakdown of the outstanding debt based on current debtor addresses. As debtors may have multiple addresses registered with SPER, the allocation of debt to a postcode is based on their most current address available. It is possible that some debt may be reported under different postcodes over time, due to debtor relocation or identification of new address information by SPER.

Any postcodes with fewer than ten debtors are combined and identified as [**] in the last row of the report.

As at 31/10/2018

Postcode	Number of debtors	Number of debts	Outstanding balance
4000	4,322	19,581	\$10,919,000
4001	491	2,826	\$2,410,000

Breakdown of outstanding SPER debt by postcode in Queensland

Disclaimers: This report includes all types of debt currently outstanding with SPER.

It should be noted that this data is only available at a current point in time; it is not possible to report historically on this data.

It should also be noted that some postcodes can span multiple suburbs. For example, postcode 4020 includes data for both Redcliffe and Scarborough. Therefore, this needs to be taken into account when grouping postcodes to reflect a region, local/state electorate or Statistical Division.

This report is a breakdown of the outstanding debt based on current debtor addresses. As debtors may have multiple addresses registered with SPER, the allocation of debt to a postcode is based on their most current address available. It is possible that some debt may be reported under different postcodes over time, due to debtor relocation or identification of new address information by SPER.

Any postcodes with fewer than ten debtors are combined and identified as [**] in the last row of the report.

As at 31/10/2018

Postcode	Number of debtors	Number of debts	Outstanding balance
4569	125	808	\$276,000
